

style or technology ... now you can have both

ANPR

- AUTOMATIC NUMBER PLATE READING
- ALL-IN-ONE SYSTEM: CAMERA, ANALYSER, IR ILLUMINATOR
- ALL EUROPEAN COUNTRIES ONBOARD
- BLACK/WHITE LIST MANAGEMENT
- RANGE OF ACTION 4 - 6 METRES
- EASY USER CONFIGURATION

IR

PRODUCT APPLICATION

The NedapAVI **ANPR** reader offers automatic number plate reading.

The all-in-one unit combines a camera, IR illuminator and an embedded processing software analyser.

The ANPR is loaded with most European license plate formats, and can be easily configured by its web browser via RS485 or ethernet connections.

Using its separate Wiegand Interface Module, stored plates can be allocated to a Wiegand style ID allowing the unit to interface with most third party access controllers, providing ease of integration with existing systems.

FEATURES

- Embedded database allowing users to be added in advance of visit.
- No requirement to carry an access card.
- Easy integration with third party access controllers using Wiegand Interface Module
- Simple web browser interface for easy administration.

TECHNICAL SPECIFICATION

[datasheet](#)

Mechanical

dimensions: 200mm x 120mm x 100mm
housing: aluminium die-cast chassis with HIPS cover
weight: 3 kg nominal
mounting: adjustable bracket / pole mount

Connections

PLEASE REFER to USER MANUAL

Environmental

operating temp: -20 °C to +55°C
protection: IP66

Electrical

voltage: + 24 Vdc
power: 3 Amp @ 24 Vdc +/- 10%
data output: Wiegand / Clock & Data / magstripe (depending on tag format)

PART NUMBERING

9949933 - ANPR

9958789 - ANPR Wiegand interface module
